### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin J. Hauptman on 01/28/05. The application has been amended as follows: Claims 33 and 34 have been cancelled.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Claims 15, 23 and 35 are allowable because the prior art of record fails to disclose or suggest or teach the recited thermostat including an electric temperature control circuit mounted in the refrigerator but outside the refrigerator chamber, the electric temperature control circuit including a setting element which is physically movable relative to a remainder of the electric temperature control circuit, different relative positions between the setting element and the remainder of the electric temperature control circuit indicating different temperature settings for the thermostat; a flexible control cable mechanically connecting the manual regulator and the setting element of the electric temperature control circuit for mechanically transferring physical movements of the manual regulator into corresponding physical movements of the setting element, and hence, into corresponding temperature setting of the thermostat. (See claim 15); control box containing both the electric temperature control circuit of the thermostat and the light
